Maintenance

Maintenance Back cover

- Please thoroughly read this manual before use and use the product accordingly. Misuse may injure baby.
- Please keep this manual in a convenient place for ease of future reference.
- If you pass this product to others, please make sure to attach this manual to the product.

Before use

Thank you for purchasing the Combi Ninna Nanna magical Compact 3-Way / 4-Way soft baby carrier. This product is a generic single-baby carrier designed for cradling, cuddling or back carrying a baby during shopping or outdoor activities. Before use, please read "Name of parts" on P.5 and examine the parts accordingly. Read all instructions before assembling and using the baby carrier. Keep instructions for future use.

- Magical Compact 4-Way can be used for cradling, face-in cuddling, face-out cuddling, or back carrying a baby.
- For customers who have purchased Magical Compact 3-Way
- This product can be used for face-in cuddling, face-out cuddling or back carrying a baby.
- Please thoroughly read the parts related to face-in cuddling, face-out cuddling and back carrying. (For actual usage, please refer to P.13 to 24.)

● Age reference for applicable baby

(Baby's body size may vary according to different growing speed.)

Carrying style	Age reference			Weight
	0M	Neck muscle developed	Waist muscle developed	
Cradling ※ only for Magical Compact 4-Way		From newborn until neck muscles developed (up to about 4 months)		Up to 7.0kg
		After neck muscles developed (up to about 24 months)		
Face-in cuddling		After neck muscles developed (up to about 24 months)		Up to 13.0kg
Face-out cuddling		After neck muscles developed (up to about 24 months)		Up to 13.0kg
Back carrying		After neck muscles developed (up to about 36 months)		Up to 15.0kg

- ※ Some large babies may not fit the carrier in winter months when wearing thicker clothes. Please choose clothes for baby carefully before using the carrier.
- ※ In case of cradling, a baby's height shall be under 64cm.
- ※ Newborn baby refers to baby weights 2.5kg or above, has been carried for more than 37 weeks of pregnancy.

For safe use of our product

Caution about safety

The caution items mentioned here are about how to use the product properly and safely so as to prevent any possible injury to user and baby and any damage to the product. Moreover, the caution items are categorized according to the degree of injury and damage to the product which are indicated as "warning" and "caution" respectively.

Caution and usage conditions mentioned are very important. Please read and follow accordingly.

Improper operation may directly cause death, severe damage or injury.

Improper operation may cause injury or damage to the product.

- Details of the caution item is written inside the frame (P.2 - P.4)
- △ This sign indicates there is a warning or caution item.
- X This sign indicates there is a prohibited action.

Before use

WARNING

Always secure the following buckles and hooks when use. Otherwise baby may fall from the carrier.

● Cradling

(Applies only to Magical Compact 4-Way)

- Head support hook (left and right)
- Safety buckle

● Face-in and face-out cuddling

(Applies only to Magical Compact 4-Way)

- Head support hook (left and right)
- One-touch buckle
- Bridge buckle

● Back carrying

(Applies only to Magical Compact 4-Way)

- Head support hook (left and right)
- Bridge buckle

Please ensure the following belts are comfortably tightened to fit user's body.

Any gap in between baby and user and/or imbalanced length of the left and right belt may cause baby to fall from the carrier.

● Cradling

(Applies only to Magical Compact 4-Way)

- Side belts
- Safety belt

● Face-in and face-out cuddling

- Side belts

● Back carrying

- Side belts

CAUTION

Do not let the baby place their fingers into an unfastened buckle as they may become stuck and cause injury. Please fasten the buckle even if you are not using the product.

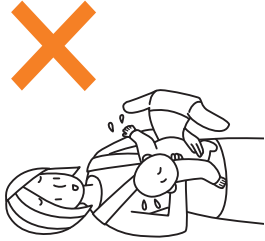

To be continued

Before use

WARNING

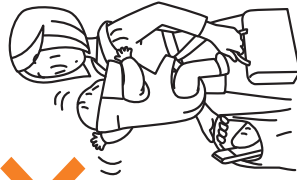

Please seat or unseat baby at a safe place to ensure the baby cannot fall from the carrier.

When the carrier is in use, please do not run, jump, lean forward more than 45 degrees, or lean to the side. Otherwise, baby may accidentally fall from the carrier.

In cradle or cuddle position, always support baby with your hands. The baby's unexpected movement may cause it to fall from the carrier.

The cradling position is not applicable to the following babies.

- Babies weighing more than 7.0kg.
- Babies whose head protrudes out of head guard when seated.
- Baby who can turn or roll itself without aid.

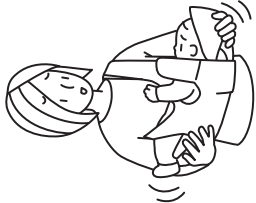

These situations may cause injury to baby.

If the head support is folded in cuddling position, please do not let baby's arms stretch out over the head support. Otherwise, baby may accidentally fall from the carrier.

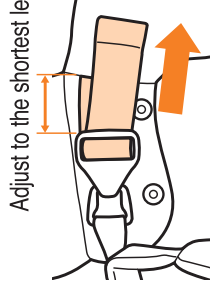

In cradle position, make sure baby's head is in a higher position than its feet, and do support the baby's head with one hand. Improper cradling may exhaust the baby or cause injury.

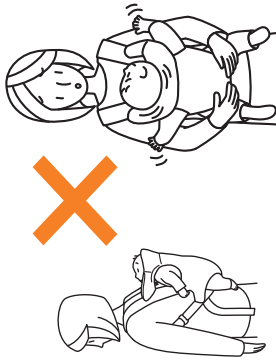

In cradling position, keep the left and right head support belts in the shortest length. Otherwise the baby's head position may go lower than its feet and may cause it to fall from the carrier.

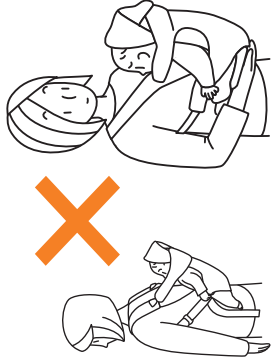

Adjust to the shortest length

Cuddling and back carrying is not applicable to baby whose neck muscles are not yet developed, otherwise the baby may become tired, exhausted or injured.

Remove the cradling sheet when cuddling and back carrying baby. Otherwise the cradling sheet may press on baby's head.

WARNING

In cuddling or back carrying position, if baby's shoulder reaches head support, adjust the baby's position (refer to P.16). Otherwise, the baby may fall from the carrier.

CAUTION

Check baby's condition regularly, stops using the carrier at once if any abnormal facial expression from baby is seen.

Do not use the carrier continuously for more than 2 hours, or within 30 minutes after feeding. Otherwise, the baby or user may experience discomfort.

Stop using the carrier immediately if you experience pain or discomfort. Especially mothers at nursing period, do not carry the baby at the back by crossing the shoulder which may be over pressed.

Before use

In the event that any damage to the product is found, cease using the carrier immediately.

When using in the cradling and cuddling positions, please watch your step.

Do not leave the carrier near fire or outside. Otherwise, buckles or other fabric parts may be deteriorated by heat or rain which may in turn become cause of accident.

Do not use this product for the purposes other than those stated in this manual to avoid any damage to the product.

When baby's armpit is reaching the carrier in cuddling or back carrying position, adjust baby's position (Refer to P.16). Otherwise, unexpected burden or injury may be inflicted to baby.

Name of parts

Before use

Carrier

※ used only for cradling

Pocket

Storage bag can be rolled up and put in the pocket while cuddling the baby.

Storage bag
For storing the carrier.
Please refer to "How to use Rolling Compact Bag" on P.6.

※ Side belt is intentionally twisted to better fit the user's body.

Cradling Sheet

(※ only for Magical Compact 4-way)

Fit Cover

(※ only for Magical Compact 4-Way Premium Breezing)

Fit cover may deteriorate after repeated washing. It is recommended to replace a new one after deterioration.

Convenient usage

How to use Inbuilt Compact Storage Bag

Easy way to store carrier into a compact size (※remove cradling sheet)

- 1 After taking out storage bag, fold shoulder straps and side belts into the inside sheet of carrier.

※ It is easier to fold it by putting head support closer to the user.

- 2 Equally fold carrier upward into one third lengths.

- 3 Put the folded carrier into storage bag, and pull the strings to tighten the opening.

How to use belt-holding band

Excess length of side belts can be folded and tied using the belt-holding band as shown below.

How to use crotch cover (※only for Magical Compact 4-Way)

In use for cradling, the excess of side belts or ladder locks can be stored in the crotch cover.

Part adjustment methods

Before use

Adjust shoulder straps (side belts) length

- For making it shorter, lift the ladder lock vertically and pull out the excess of side belt.
- For making it longer, lift the ladder lock vertically and pull back the side belt.

Adjust side belts if user wants to :

- Adjust the height of baby's position
- Fit user's body for carrying
- Carry baby in a more horizontal position (cradling position only)

Adjust head support belt length

- To shorten the head support belt, lift the head support hook vertically and pull out the excess of head support belt.
- To make it longer, lift the head support hook vertically and pull back the head support belt.

Adjust head support belts if user wants to:

- Adjust the head support to best fit the baby's head in cradling and back carrying position.

Excess of head support belt can be stored into the inner sheet as illustrated.

WARNING

In cradling position, fully shorten the left and right head support belts. Otherwise the baby's head may be lower than its feet causing it to slide out of the carrier.
(※ only for Magical Compact 4-Way)

Preparation for cradling

(※ only for Magical Compact 4-Way)

Check cradling sheet is correctly attached

Although a cradling sheet is set upon opening the package, double check the check points illustrated to the right.

※ Store the excess of head support belt into the inner side of sheet, and close head support cover by fastening the left and right cover snaps.

Adjust shoulder strap (side belt) length

Before seating the baby, adjust side belts length via the ladder lock to have shoulder strap fits user's body.

Shoulder belts should sit on the shoulder closest to the baby's head and pass behind the back and under the opposite arm.

※ Side belt is designed to be twisted to better fit user's body.
 ※ You may store belt ends and ladder locks inside inner side of crotch cover and secure crotch snap (Refer to P.6).

Cradling position

(From newborn until neck muscles are developed)

- When carrier's position is too high, extend side belt. (Refer to P.7)
- When carrier's position is too low, shorten side belt. (Refer to P.7)

Incorrect carrying position

If the carrier is angled too much the baby will lean against the shoulder belt.

Tilted position

Correct carrying position

Adjust side belts to carry baby horizontally.

Lengthen
Horizontal position
Shorten

- Ideal angle in cradling position
To shorten side belt (around 10cm), which near to user's body can carry baby horizontally.

※ Both side belts are at the same length in the sales package. Please adjust the length before use.

Cradling position

How to use for cradling

※ It can be used for both left and right head position cradling. Hereunder left head position cradling is explained.

1 Lay the baby onto cradling sheet.

Place the carrier at a safe place and lay the baby onto the cradling sheet after releasing the safety buckle of the cradling sheet.

WARNING

Seat baby at a safe place. Seating or unseating baby at an unsafe place may cause baby to fall from the carrier.

2 Pass the baby's legs through the left and right groin belts.

Pulling the groin belts can extend the leg openings so that it becomes easier to pass the legs through the leg openings.

※ Cradling is possible without having baby's arms stretch out.

3 Fasten the safety belts.

Fasten safety buckle until a "click" sound is heard, and adjust the length of safety belt, so it is firm yet comfortable for the baby.

WARNING

Secure safety buckle, otherwise baby may accidentally fall from the carrier.

(From newborn until neck muscles are developed)

How to use for cradling

※ It can be used for both left and right head position cradling. Hereunder left head position cradling is explained.

Standard tightness of safety belt
The desirable tightness of the safety belt should allow 2-3 fingers to be passed under the belt.

Adjusting method of safety belt

To extend

To shorten
Safety buckle

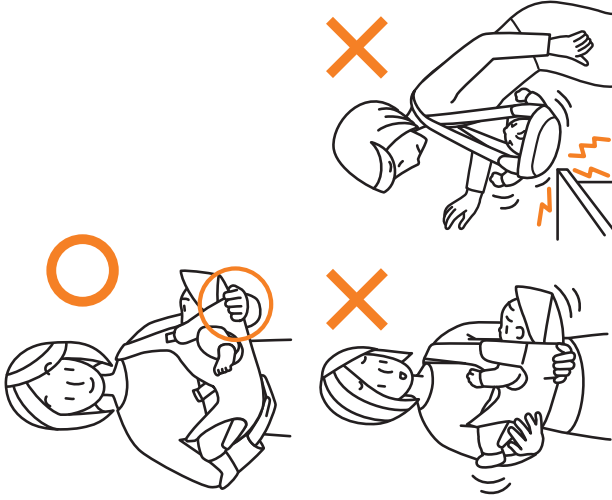

4 Cradle baby.

Put on shoulder strap across shoulder as shown below. Use hands to support baby's head and hip, and then lift the baby as you stand upright.

※ Adjust side belts to carry baby horizontally (Refer to P.8).

• When using cradling sheet, please support the back of baby's head with your hand as shown below.

WARNING

Make sure the above points, otherwise unexpected burden or injury may be inflicted to baby.

CAUTION

Make sure the above points, otherwise it becomes unstable, when your body lean forward and baby may apart from you.

To be continued

Cradling position

(From newborn until neck muscles are developed)

Cradling position

5 Check installation condition.

Ensure the carrier is securely worn by checking the check points in a mirror.

Failure to correctly use the carrier may cause the baby to fall or lead to other injuries.

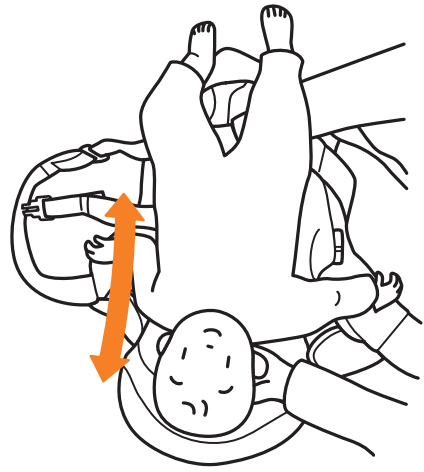

Check ✓ / Point

If shoulder belts press on the baby

If the shoulder belts are pressing against the baby, lay down the baby and adjust the position first.

Adjust the length of shoulder belts, so the baby is lying flat and not angled towards the user.

- If baby is pressed against the inner shoulder belt, lengthen the outer one.
- If baby is pressed against the outer shoulder belt, lengthen the inner one.

How to use for cradling

To unseat baby from cradle position

1. Put down baby and then remove shoulder straps.

Support baby with hands and put down baby at a safe place. Slide the shoulder straps over your head.

2. Release safety buckle.

3. Remove the baby's arms and legs from the carrier and lift out baby.

How to remove cradling sheet

Cradling sheet is initially attached to carrier in sales package. Please remove it by the following steps before washing, cuddling, or back carrying.

1. Open the left and right head support covers, and release the snaps (2 on each side).

2. Release crotch snaps (2 sets) on crotch cover.

3. Release Velcro on the back side of sheet, and remove the sheet from carrier.

To install the cradling sheet

Please follow the above steps in a reversed order (Step 3 → 2 → 1).

Before securing crotch snaps at the end, make sure to store excess of side belts and ladder locks into crotch cover (Please refer to "How to use crotch cover" on P.6).

When attaching cradling sheet, please ensure all snaps and Velcro are properly secured. If the cradling sheet comes out during use, baby may fall from the carrier.

WARNING

Preparation for face-in cuddling

※ Remove cradling sheet before use. (※ only for Magical Compact 4-Way)

1. After confirming the left and right support hooks are secured, fix the 2 sets of cover snaps on the head support cover.
2. Take out the bridge belt and bridge buckle (male).
3. Take out one-touch buckle.

Face-in cuddling position

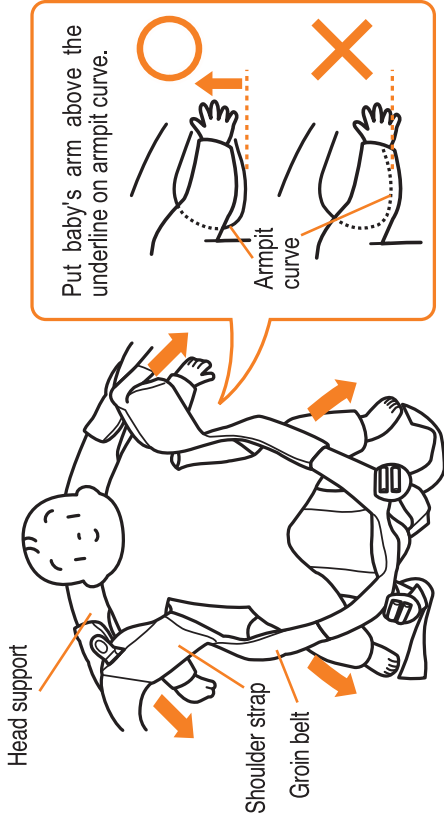

(After neck muscles have developed up to 13.0kg)

How to use for face-in cuddling

Seating baby before putting on carrier

1. Seat baby on the carrier, and have baby's arms and legs out to the side as illustrated.

Please seat the baby into carrier at a safe place.

Seating or unseating baby at an unsafe place may cause baby to fall from the carrier.

If baby's arm is placed on the lower side or armpit curve, it may adversely affect the baby's blood circulation.

How to use for face-in cuddling

※ Seating baby before putting on carrier

2 Secure bridge buckle.

Secure the bridge buckle until a "click" sound is heard.

3 Put on shoulder strap, and fasten one-touch buckle.

As shown below, hold the left and right buckles, lean forward and secure buckle behind user's neck or back until a "click" sound is heard.

4 Adjust carrier to fit user.

Try to adjust side belt such that left and right belt ends are the same length. Set shoulder strap and side belt properly. Please refer to P.7 "Adjust shoulder straps (side belt) length".

● To extend : Pull back side belt while lifting up ladder lock vertically.

● To shorten : Pull the end of side belt while lifting up ladder lock vertically.

To be continued (right arrow icon)

Face-in cuddling position

5 Check the carrier is fitted correctly.

Check the carrier is correctly fitted by checking these points in a mirror.

Check ✓/Point

Securely fastened?

- Head support hooks (left and right)
- Bridge buckle
- One-touch buckle

Tight enough to fit user's body?

- Left and right shoulder straps (side belts)

About baby

- Is the head support belt too tight around baby's head? (Refer to P.7)
- Is the baby's shoulder pressing against the head support? (Refer to P.16)
- Is the baby's armpit pressing against the carrier's sheet? (Refer to P.16)
- Is the baby's thigh pressing against the carrier's sheet? (Refer to P.16)

Use folded head support

Downward folded head support allows the baby to broaden its view while supporting the baby's neck.

If head support is not folded, it provides more support to the baby's head for sleeping.

✘ Ventilation design ensures the baby's breathing is not affected.

WARNING

Failure to ensure the above points, may

- cause the baby to fall from the carrier.
- impact the baby's breathing.
- impact the blood circulation to the arms or legs cause scratching or other injuries.

CAUTION

Ensure your visibility is not impaired by the position of the baby's head. Please mind your step as it may be difficult to see your feet.

How to adjust baby's position

※ To adjust the height of cuddling

- If the baby's shoulder is pressing against the head support

Pull up only the sheet and hold baby's hip closer to user to adjust the room between head support and baby's shoulder.

※ Stop using this product if baby's shoulder is still pressing against the head support after adjustment.

※ Adjust the length of the side belt if necessary (Refer to P.7).

- If the baby's armpit and/or thigh is pressed against the carrier's sheet

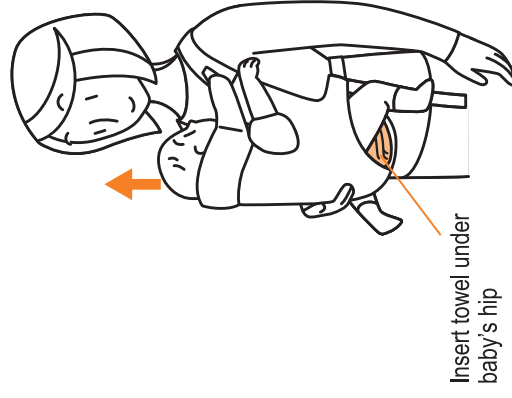

Pull down only the sheet to adjust the room between the carrier's sheet and baby.

※ Adjust the length of the side belt if necessary (Refer to P.7).

- If the baby's position is still too low after adjustment.

Insert a towel under baby's hip to raise the level of baby's hip.

Face-in cuddling position

(After neck muscles have developed up to 13.0kg)

Magical Compact 3-Way / 4-Way

16

How to use for face-in cuddling

Putting on carrier before seating baby

- ※ Please remove cradling sheet before use. (※ only for Magical Compact 4-Way)
- ※ Please refer to P.7 "Adjustment method of each part" to learn how to adjust the head support belt.

1 Put on carrier.

Place your arms through each shoulder strap loop and then secure one-touch buckle on user's back a "click" sound should be heard.

If it is difficult to fasten the one-touch buckle behind back, it is alternatively recommended to wear the carrier after fastening the one-touch buckle in advance.

2 Adjust the length of side belt to fit user's body, undo the head support hook and slide the shoulder belt off the corresponding shoulder.

3 Seat baby into carrier, and place the legs through the groin belts.

User should sit down at a safe place first. Lift up baby facing to user, and seat baby into carrier from above. Pass the baby's legs through the groin belts.

4 Place the shoulder strap on shoulder, and secure head support hook.

Return the shoulder belt to the shoulder, and fix the head support hook over baby's shoulder until a "click" sound is heard.

※ If cover snap has been released, secure it again after fixing head support hook.

5 Secure bridge buckle.

Remove the bridge buckle from the bridge belt pocket.

Fasten the buckles together until a "click" sound is heard.

Adjust excess of side belt such that left and right belt ends are the same length. Adjust the shoulder straps and side belts so they firmly but comfortably fit the user.

6 Check the carrier is correctly fitted.

Refer to "Check Point" under Step 5 on P.15.

WARNING
Seat baby into carrier at a safe place. (It is recommended to have another person assist the operation.) Seating or unseating baby at an unsafe place may cause baby to fall from the carrier.

Face-in cuddling position

(After neck muscles have developed up to 13.0kg)

How to use for face-in cuddling

The way to release face-in cuddling

1 Release buckle, and remove shoulder strap.

While sitting in a safe place, support baby with one hand and release one-touch buckle, then remove shoulder straps.

※ To release buckle, press the inserted part from inside.

2 Lay down the baby somewhere safe and release bridge buckle.

Press part printed "PRESS" on the bridge belt to release bridge buckle.

3 Remove baby's arms and legs from carrier, and unseat baby.

Pull groin belt, remove the baby's legs from the groin belts. Remove baby's arms from carrier and lift up baby.

(After neck muscles have developed up to 13.0kg)

How to use for face-out cuddling

Face-out cuddling position

(After neck muscles have developed up to 13.0kg)

- ※ Please remove cradling sheet before use. (※ only for Magical Compact 4-Way)
- ※ Please refer to P.7 "Adjustment method of each part" for how to adjust the head support belt.

1 Put on carrier.

Refer to Steps 1 and 2 of "Putting on carrier before seating baby" on p.17 for the preparation.

2 Seat baby into carrier, and place the legs through the groin belts (leg openings).

User should be sitting down when loading the baby. Lower the baby from above (facing outwards) and pass the baby's legs through the groin belts.

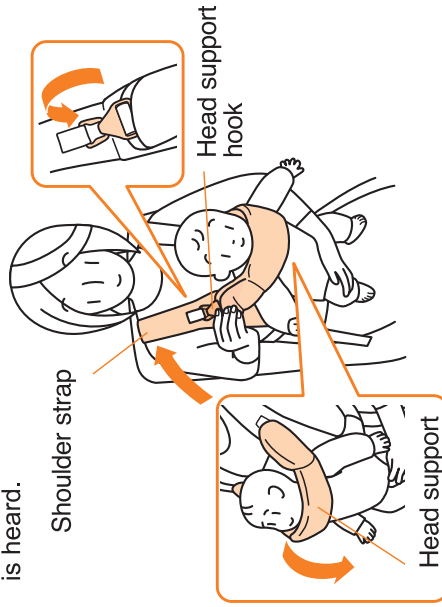

Groin belt

WARNING
Seat baby into carrier at a safe place. (It is recommended to have another person to assist the operation.) Seating or unseating baby at an unsafe place may cause baby to fall out of the carrier.

3 Ensure the shoulder strap is sitting on your shoulders, fold the head support down and secure head support hooks.

Ensure the shoulder belts are sitting on both shoulders. Fold down the head support. Secure the left and right head support hooks. They should click firmly into place until a click sound is heard.

Shoulder strap

Head support hook

Head support

WARNING
In face-out cuddling position, make sure to fold head support downwards. Otherwise, baby may be injured.

How to use for face-out cuddling

4 Secure bridge buckle.

Fasten the buckle until a "click" sound is heard.

Adjust side belts such that left and right belt ends are the same length. Set shoulder strap and side belt properly.

5 Check installation condition.

Ensure the cuddling position is appropriate by checking the following check points in the mirror.

Check ✓/Point

● **Securely fastened?**

- ✓ Head support hook
- ✓ Bridge buckle
- ✓ One-touch buckle

● **About baby**

- ✓ The head support should not be covering baby's mouth.
- ✓ The baby's armpit should not be pressed against the top of the carrier arm hole.

● **Are the side belts firmly tightened?**

- ✓ Left and right shoulder straps (side belt)

Failure to ensure the above points, may cause the baby to fall from the carrier.

- impact the baby's breathing.
- impact the circulation to the arms or legs
- cause scratching or other injuries.

WARNING

If the baby's mouth is covered by head support and/or armpit is pressed against the armhole.

Pull down the lower part of sheet to increase the room between head support and baby's mouth or between sheet and baby. If the position is not improved, please insert a towel under baby's hip to raise the level of baby's hip (Refer to P.16).

Face-out cuddling position

(After neck muscles have developed up to 13.0kg)

How to release face-out cuddling

Please follow the steps of "How to use for face-out cuddling in a reversed order (Step 4→3→2 on P.20 and 19).

1. Press the printed "PRESS" on the bridge belt to release bridge buckle. (See Step 4 on P.20)
2. Undo the left and right head support hooks, and take off one side of the shoulder strap. (See Step 3 on P.19)
3. Remove baby's legs from carrier, and unseat baby. (See Step 2 on P.19)

How to use for back carrying

Back carry position

(After neck muscles have developed up to 15.0kg)

- ※ Please remove cradling sheet before use. (※ only for Magical Compact 4-Way)
- ※ Please refer to P.7 "Adjustment method of each part" to adjust the head support belt.

1 Seat baby into carrier.

Please refer to Step 1 and 2 "How to use for face-in cuddling—Seating baby before putting on carrier" (P.13 and 14).

Check ✓ Point

- Are the baby's legs through each leg hole?
- Are bridge buckle and head support hooks securely fastened?

Seat baby into carrier at a safe place. (It is recommended to have another person to assist the operation.) Seating or unseating baby at an unsafe place may cause baby to fall from the carrier.

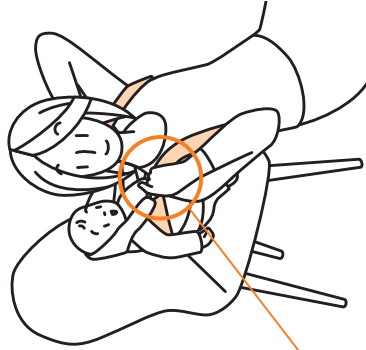

WARNING

2 Carry baby.

When standing up with a baby carried on back, securely hold the end of shoulder straps where it joins the carrier body.

※ It is recommended to have another person assist the operation.

※ Please hold the end of shoulder strap where joins the carrier body.

3 Adjust side belt to fit user.

Adjust side belts such that left and right belt ends are the same length. Set shoulder strap and side belts, so they are firm.

How to use for back carrying

4 Check installation condition.

Ensure the back carrying position is appropriate by checking how the baby is sitting using a mirror.

Check ✓/Point

- **Tight enough to fit user's body?**
 - Left and right shoulder straps (side belt)

WARNING
Always ensure the above points, otherwise baby may accidentally fall from carrier.

- **About baby**
 - Is the head support belt sufficiently firm around baby's head? (Refer to P.7)
 - Is baby's shoulder pressing against head support? (Refer to P.16)
 - Is baby's armpit pressing against sheet? (Refer to P.16)
 - Is baby's thigh pressing against sheet? (Refer to P.16)

WARNING
Always ensure you check for the above points, otherwise baby may be choked, scratched or injured.

CAUTION
Always ensure you check for the above points, otherwise baby's armpit and/or thigh may be congested with blood.

When back carrying, please check baby's condition every half an hour.

In back carrying position (especially for younger babies), as user is unable to see the baby, please try to unload baby every 30 minutes and check its condition.

Back carry position

(After neck muscles have developed up to 15.0kg)

If baby's shoulder is pressed by head support (Refer to P.16)

※ Please stop using this product if baby's shoulder is still pressed after making this adjustment.

If the baby's armpit and/or thigh is pressed by carrier's sheet (Refer to P.16)

To be continued

Back carry position

Use folded head support

Outside folded head support allows the baby to broaden its view while supporting the baby's neck.

If the head support is not folded, it can support baby's head for sleeping.
 ※ High ventilation design, ensure baby's breathing is not affected.

It is possible to use in the back-carrying position with the one-touch buckle fastened in front. (as shown) Extend side belts and fix one-touch buckle in front of user's lower part of chest to fit user's body.

If the user feels pain and/or discomfort, please immediately stop using the product. Please do not use Cross Style back carrying when user is lactating.

How to release back carrying

※ When using back carrying position with chest buckle fastened in Cross Style, to remove the carrier, first release one-touch buckle.

1. Unload baby from back.

※ It is recommended to have another person to assist the operation.

Please hold the end of shoulder strap where it joins the carrier body.

2. Place baby on a safe place and release bridge buckle.

Press printed "PRESS" on the bridge belt to release bridge buckle.

3. Remove baby's arms and legs from carrier, and unseat baby.

Stretch groin belts open and remove the baby's legs from the groin belts. Remove baby's arms from carrier and lift out the baby.

Usage of accessory

※ Only for **Magical Compact 4-Way Premium Breezing**

How to attach Fit Cover

※ **Use only in cuddling and back carrying position.**

Fit cover can absorb baby sweat and dirt, which is detachable and washable.

1 Open both left and right side head support covers and release head support hooks.

3 Secure both left and right head support hooks and cover snaps.

4 Pull both sides of fit cover to cover head support completely.

2 Attach fit cover on both left and right head support through the outlet of fit cover.

How to detach Fit Cover

※ Refer to the above "How to attach fit cover".

1 Release both sides of head support hooks.
2 Detach fit cover from head support through outlet.

Maintenance

Daily maintenance

- Use cold or warm water to wash carrier. After washing, shape it properly and lay it in a shaded area to dry.
- Use a damp cloth to clean off small stains.

CAUTION
When baby's saliva is adhered to the fabric, please clean it as soon as possible to avoid the fabric from becoming hardened. Hardened fabric may inflict discomfort to the baby.

Caution about washing

- Wash carrier separately from other colored items to prevent color degradation. Do not soak carrier in water for an extended period.
- Do not use bleach or fluorescent brightener as they may cause skin irritation. It is recommended to use Combi's detergent series.
- For cradling sheet, please wash separately as Velcro (male) may cause damage to other items being washed.
- Do not put carrier into washing machine, spinning machine or drying machine, all of which may cause damage to the buckle.
- Refer to the washing label attached to the product for the appropriate washing methods and carrier composition details.
