6

## About compact cooking set with mini colander

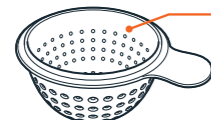

### ● Grinding plate

The bottom of grinding plate is made with grooves and can be used to mash food. Can be used as lid as well.

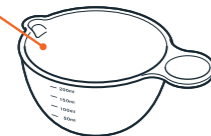

### ● Mini colander

Can be used to wash or filter washed food etc..

### ● Cooking bowl

Can be used to heat or defrost food. Measuring marks are equipped.

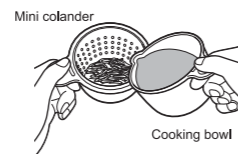

7

## Cooking example

### To extract oil and salt

• White bait or tuna etc..

Use cooking bowl together with mini colander.

### Heating or defrosting

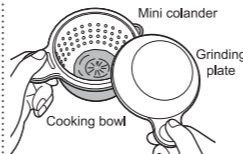

• Milk or frozen congee

Use grinding plate together with cooking bowl.

### To boil or cook

• Normal dish or soup, vegetable paste etc.

Use grinding plate, mini colander and cooking bowl together with the microwave oven.

8

## About feeding spoon

### ● Feeding spoon (For piling food)

The spoon tip is made with soft material so that it can be used to feed child more easily and pile up food paste more easily.

### ⚠ CAUTION

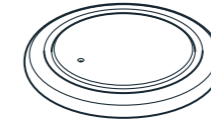

If any damage or rift is found on product, stop using immediately and replace with new ones.

9

## Lid for microwave use

### ● Lid for microwave oven

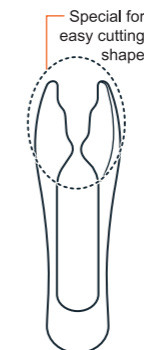

Can be used with baby feeding bowl, deep feeding bowl and baby first cup as a lid when heating up or defrosting in the microwave oven.

## About noodle cutter

### ● Noodle cutter

When feeding child at the weaning stage (around 7 months), the noodle cutter can be used to cut the food into smaller pieces for easier feeding.

### To cut noodle

- ① Hold the noodle cutter like illustration at around the middle of noodle cutter closer to the sharp end.
- ② Slowly cut the noodle into appropriate length and scoop them up.

### ● Noodle size reference at weaning stage

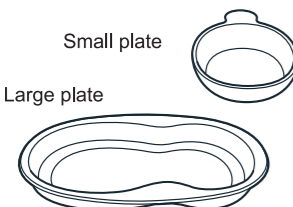

Weaning stage	Length reference	Hardness
Mid stage (7~8 months)	Around 5mm	Soft enough to be able to mash with tongue
Later stage (9~11 months)	Around 2~3cm	Soft enough to be able to mash with gum
Final stage (12~18 months)	Around 4~5cm	Soft enough to be able to chew with gum

10
